What is Takaful?

Takaful is an age old Islamic concept of mutual help & support blended with modern concepts of Actuarial Science, Underwriting and Investment under the supervision of a Shari'ah Advisor. It is a Shari'ah compliant way of supporting each other in case of any unforeseen adverse event.

How does Takaful model work?

How Does the Takaful Membership Operate?

IGI Life - WTO's takaful model is based on the Wakalah-Waqf principal. Individuals in the community come together for a common purpose and contribute into a Waqf Fund operated by a Takaful Operator to protect themselves against future financial losses.

Surplus Sharing

Participants of the Takaful fund, as per the terms and conditions of the Waqf, may be entitled to a share of possible surplus funds. Takaful offers a unique feature of Surplus Sharing to the Participants in addition to risk mitigation benefits. As approved by the Shari'ah Advisor and Appointed Actuary at the end of each year, IGI Life - Window Takaful Operations will determine surplus (if any) available in the Participant Takaful Fund (PTF) for distribution.

Protection Benefit

In the event of death, the higher of Account Value or Sum Covered (less any partial withdrawals) PLUS Account Value of TOP UP (if any), is payable.

The range of Cover Multiples offered under this plan is 5-70.

For example, if your annual basic Contribution is PKR 250,000 and you have selected a cover multiple of 5, your total sum Covered would be PKR 250,000*5= PKR 1,250,000.

The Sum Covered amount will be a multiple of Basic Contribution depending on the age of the participant as follows:

Age	Cover Multiple	
	Minimum	Maximum
up to 55	5	70
56 to 60	5	15
61 & onwards	5	5

The table below shows the percentages of the Vitality Integrated benefit:

How Vitality Works

Vitality rewards its members through a point system based upon physical activity and certain health-related questionnaires. The program runs through the Vitality app on the participant's smartphone and points can be measured through the Health app or an optional wearable device.

Daily Points are awarded based on the number of steps taken for the day or increased heart rate to a level for a minimum of 30 minutes, whichever is higher.
